Skin contact: Prolonged or repeated contact with liquid may cause irritation. Wash affected area with soap and water. Launder contaminated clothing before reuse.
Eye contact: Flush immediately with water for 15 minutes. Consult a physician if irritation persists.
Ingestion: Not an anticipated route of exposure. Small amounts are not anticipated to be harmful. Do not induce vomiting. Get immediate medical attention. Never give anything by mouth to an unconscious person

5. FIRE FIGHTING MEASURES

Flash point: Non applicable
Auto ignition temperature: Not applicable
Flammable/Explosive limits - lower: Not applicable
Flammable/Explosive limits – upper: Not applicable
Extinguishing media: Non- flammable in liquid state; use water spray (fog), foam, dry chemical or carbon dioxide on dried product.
Special firefighting procedures: Fire fighters should wear positive pressure self-contained breathing apparatus (SCBA). Wear full protective clothing.
Unusual fire or explosion hazards: There is the possibility of pressure build-up in closed containers when heated. Water spray may be used to cool the containers.
Hazardous combustion products: Incomplete combustion can yield low molecular weight hydrocarbons, carbon monoxide.

6. ACCIDENTAL RELEASE MEASURES

Dike if necessary, contain spill with inert absorbent and transfer to containers for disposal. Keep spilled product out of sewers, watersheds or water systems
Environmental precautions: Do not allow material to contaminate ground water system. No special environmental precautions required.
Clean-up methods: Spills should be taken up with suitable absorbent and placed in containers. Spill area can be washed with water; collect wash water for approved disposal. Do not flush to storm sewer or waterway. Contact state or town municipalities for proper disposal instructions.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Employers should complete an assessment of all workplaces to determine the need for, and selection of, proper exposure controls and protective equipment for each task performed.

Hazardous components	ACGIH TLV	OSHA PEL	AIHA WEEL	OTHER
None	None	None	None	None

Engineering controls:

General room ventilation is usually adequate. Local exhaust ventilation is recommended when general ventilation is not sufficient to control airborne contamination.

Respiratory protection:

No personal respiratory protective equipment normally required. Where the potential exists for exposure to decomposition products due to heating or elevated temperatures, wear NIOSH approved respiratory protection as appropriate. Observe OSHA regulations for respiratory use (29 CFR 1910.134).

Eyeface protection:

Safety goggles or safety glasses with side shields. Full face protection should be used if the potential for splashing or spraying of product exists.

Skin protection:

Use impermeable gloves and protective clothing as necessary to prevent skin contact. Wear suitable protective clothing.
