GLUEFAST NEW DUPLEXING SYSTEM!

The Gluefast Company is proud to introduce a simple duplexing system which is ideal for making double and triple thick business cards. It consists of three parts:

Glue machine: Applies water based mounting glue to cardstock

Alignment Board: Serves as a guide for placement of glued sheets using adjustable brackets for different paper widths.

Weighted Board: Holds glued sheets under pressure for 30 minutes until glue has dried. Simple to use and maintain this system can produce 150 glued sheets per hour with one operator.

The Gluefast Company has manufactured gluing equipment and adhesives for the packaging, converting, and graphics industries for 79 years! Gluefast can be found on the web at www.gluefast.com. We will be exhibiting our products at the Graphics of the Americas show at booth #1100 at Fort Lauderdale Convention Center February 22-24, 2018

For further information please contact Lester Mallet by phone or e-mail: lmallet@gluefast.com.
